

DGC Goes

TACTICAL

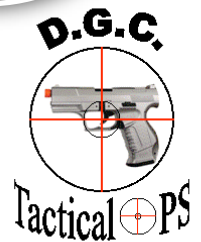

DGC's new AIM toward a family driven sport that offers affordable excitement, challenge, and a new meaning to competitiveness.

Airsoft: A sport which uses replica firearms to shoot small diameter plastic pellets, usually in organized scenarios, military tactics, and target shooting.

AIRSOFT - ALL THE REASONS TO GIVE IT A SHOT

it's really making its mark in the world of recreational shooting, read on to see why we are getting in on all the hype. We promise you will want in on the game!

Why women are choosing airsoft-

It is as competitive as shotgun or pistol shooting, with less intimidation. Women enjoy being able to work on accuracy and speed without the fear of a firearms recoil or that they may hurt someone. Also, this sport is a less expensive alternative to traditional sport shooting, This means less guilt in their pleasure. It is also a sport that comes with great camaraderie, whether with fellow co-workers or close friends, Airsoft brings a whole new meaning to a "Girls Night Out"!

Why we are excited to get the youth involved-

It is so important to teach our youngsters to respect all forms of weapons and the safety and responsibility that come along with them. It is JUST as important to provide them with a place to explore their curiosity in a safe environment, along with proper supervision. With airsoft, kids are being taught all means of shooting safety and fundamentals while building skills in coordination, speed, and accuracy. Now, add the rush and excitement of shooting an M-4 or AK-47, (don't worry moms, we are still talking airsoft!). Trouble getting your boy out of his room before noon on Sunday's? Not anymore!

Why men are pulling the trigger-

It's fresh, it's new, it's competitive, anything else to say? Men are loving this sport. With today's economy, money for extras seems to be dwindling. Airsoft, again, is a less-expensive route in sport shooting. No more decreased "man time" due to lack of funds. Did we mention, it is a proven marksmen's game. The FBI and Police Force train using these same weapons and tactics. Oh yes-fun, thats right, just plain fun. Shake out all the tension and pressure and have a riot with your buddies. That's what you come for right? And we all know men like to be put to the test, so test yourself...just how sharp of a shooter are YOU?

Overall, airsoft is a new challenge for the whole family. We hope that you will take advantage of this new exciting sport, coming to DGC Spring 2011. Practice Range and Tactical Course, complete with Timed Challenges and Weekly Competitions.

Are you up for the challenge? You have until Spring- Research your guns, put together your team, and get ready to take shooting to another level!

***DGC Proshop is now an official Airsoft Dealer! See Scott or Logan to find the gun that is right for you! Do your research at www.airsoftsd.com**
